POSITIVE BEHAVIOUR POLICY

September 2024

## **Aims and Principles**

The aim of this policy is to set out the way in which we will support children to behave in a responsible, kind and sociable manner. It applies to all children and all adults in the school. The core aim of our approach is that pupils take growing responsibility for their learning and behaviour.

These are our **3 principles** that underpin this behaviour policy:

1. **Be ready**
2. **Be respectful**
3. **Be safe**

## **Therapeutic Thinking**

This policy is based on the current thinking and research that underpins the West Northamptonshire Therapeutic Thinking approach (detailed below). This policy enables the children to work in a safe and secure environment where all children and staff are valued.

It is accepted that a whole school approach focusing on positive emotional wellbeing and behaviour culture requires deliberate creation. Through strong leadership this is designed and detailed through a clear vision and values focusing on realistic social and academic expectations for all.

## **Behaviour is a form of communication**

Approaches to emotional wellbeing and behaviour are viewed in a non-judgmental, curious, and empathetic way. In 2014 the Code of Practice of Special Educational Needs (SEN) replaced the term Behaviour and Social Difficulties (BESD) with Social, Emotional, and Mental Health (SEMH), promoting a shift towards a therapeutic approach to behaviour.

## **Not all behaviours are a choice**

Children and Young People (CYP) with poor emotional wellbeing are regarded as vulnerable rather than troublesome. It is accepted that some behaviours can be driven by a communication need, a perceived outcome, or a biological reaction to overwhelming feelings.

## **Behaviours can change and improvement can be secured**

Expectations of pupil's emotional wellbeing and behaviour are high but realistic and grounded in a belief that change can be effected and improvements secured.

## **Clear boundaries are paired with an individualised graduated response where needed**

A nurturing and structured environment is used to keep CYP safe. A clear well communicated behaviour policy is used to set standards and create consistency. The policy enables reasonable adjustments for clear well-communicated plans where differentiation from the policy is essential to meet a CYP's needs including educational, mental health and other needs or vulnerabilities.

## **Children may develop academically and emotionally at different rates**

It is accepted that there may be a difference between a child's chronological age, their academic achievement, and their emotional literacy. Children achieving well academically may well still require differentiated planning.

## **Children and young people are supported to develop internal discipline/self-regulation and resilience**

A variety of feedback, reward, or consequence systems are used to develop CYP as resilient independent learners with positive emotional wellbeing and behaviour.

### **A commitment to equality and equity**

Each child receives resources appropriately differentiated to enable them to access school, learning and social opportunities, equally. The Equalities Act 2010 recognises that some CYP may need additional support to increase positive emotional wellbeing and support behaviour.

### **A commitment to exclusion reduction**

Permanent exclusions are used only as a last resort. There is a clearly defined rationale for exclusion linked to an understanding of vulnerable groups such as those affected by attachment, adverse childhood experience, trauma, mental health, and protected characteristics such as disability or race.

### **Engagement of families, outside agencies and the wider community is sought when planning support for CYP**

There is proactive engagement with families, outside agencies and the wider community to promote consistent support for CYP. Parents and carers are key in promoting positive emotional wellbeing. These adults have an informed perspective, and their insights are of value in informing planning and decision- making.

### **Children's Responsibilities**

- To meet the high expectations expected of them at all times
- To work to the best of their abilities and allow others to do the same
- To treat others with respect and kindness
- To co-operate with others
- To follow the instructions of all adults in school
- To take care of property and the environment in and out of school

### **Staff Responsibilities**

- To treat all children fairly and with respect
- To have high expectations for every child
- To raise children's self-esteem and develop their full potential
- To provide a challenging, interesting and relevant curriculum
- To create a safe and pleasant environment both physically and emotionally
- To use positive and negative consequences clearly and consistently
- To be a good role model
- To form positive relationships with children and parents
- To recognise and value that each child is an individual
- To offer a framework for teaching the personal, social and emotional skills and abilities that underpin the school's behaviour policy

### **Parent/Carer Responsibilities**

- To support children to develop awareness of appropriate behaviour in all situations

- To encourage independence and self-discipline
  - To show an interest in all that their child does in school
  - To foster good relationships with staff at school
  - To support the school in the implementation of this policy
  - To be aware of the school expectations for behaviour
- By choosing Moulton Primary School for their child, parents and carers support the expectations in our behaviour curriculum and agree with this policy

## **Our Behaviour Curriculum**

**Valued behaviours** are explicitly taught and regularly refreshed to ensure all pupils understand the expectations of them. The valued behaviours are underpinned by our 5 school values:

- Readiness
- Responsibility
- Reflection
- Resilience
- Resourcefulness

Our behaviour curriculum sets out clear parameters for the valued behaviours so that we have a shared and consistent language of expectations across school. The curriculum is taught explicitly during the first week in Autumn term alongside the traditional National Curriculum subjects.

Children should learn the content of the curriculum so that they can recall the information and act upon it. At the start of each term, the behaviour curriculum is revisited with pupils and will continue to be reinforced throughout the year. As with other curriculum content, this should be taught using explicit teaching based on the ten 'Principles of Instruction' set out by Barak Rosenshine including regular quizzing to check and strengthen retention.

Teachers will also demonstrate these behaviours and ensure pupils have many opportunities to practise these (particularly in the first few days of term). It is expected that all pupils will know this content.

Our 'no hands up' approach ensures that all children are expected to be engaged with the learning and to take an active part in the lesson. When using a range of strategies to engage children in discussion and questioning, teachers will always know how to approach the different children in their class so that the exchanges are positive and successful for all.

Within class the following routine for gaining the attention of all children will be applied:

- 3** – Begin to finish what you're doing.
- 2** – Eyes looking at the adult.
- 1** – Turn to face the adult and no more talking.
- Stop** – Everyone is ready to listen.

A consistent approach is essential to reinforcing boundaries of acceptable behaviour.

## **Rewards**

To reward children for positive behaviour we have the following in place:

- Positive praise and stickers
- Certificates to be sent home to parents/carers
- Achievement Certificate where two children from each class are presented with a certificate to celebrate good work or behaviour in the weekly Family Assembly
- Pride Award - Children who produce a piece of exceptional work will be rewarded with a certificate in assembly and a visit to the Senior Leadership Team
- Family Play – Families gather together on Friday afternoons to enjoy a final, additional playtime to end the week
- Afternoon Tea - one child from each class chosen each week
- Family tokens will be rewarded for the following behaviours:
  - Positive conduct: good behaviour, good manners, caring for ourselves, others and the school, helping, respecting etc.
  - Positive Learning: good presentation, effort, focusing, collaboration, independence etc.
  - Positive extras: role model, reading every day, exceptional homework etc.

Once a token has been earned it cannot be taken back.

Family tokens will be collected within the class for each Family and taken to Family Assembly every Friday.

The Family with the most tokens each half term will be rewarded with a prize day activity such as a dance experience, musical experience, extra P.E. activities, computing session etc.

## Detrimental Behaviour

Detrimental behaviour is behaviour that causes harm to an individual, a group, to the community or to the environment. Staff will use the strategies detailed below to encourage valued behaviour, however there will be times when children need additional support to learn about their detrimental behaviour.

## Consequences

At Moulton, consequences will be derived through logic and naturally follow an action. Children will experience consequences for their detrimental actions. We will use two types of consequences, '**Protective**' and '**Educational**'. Both of these create a number of strategies within them to teach valued behaviours to our children, whilst keeping them in a safe learning environment. Certain detrimental behaviour incidents may not require a protective consequence but there must always be an educational consequence. Detailed below is our expected response system for detrimental behaviour.

### De-Escalation Script

The following steps should be taken in circumstances where a child is demonstrating dangerous behaviour. One adult should lead the interaction, with another observing at a distance so as not to overwhelm the child and to support if required.

1. Use the person's name – **“David...”**
2. Acknowledge their right to their feelings – **“I can see something is wrong”**
3. Tell them why you are there – **“I am here to help”**
4. Offer help – **“Talk to me and I will listen”**
5. Offer a “get-out” (positive phrasing) – **“Come with me and....”**

### Restorative Debrief

Once the child is calm, relaxed and reflective, the experience can be re-visited with an adult.

The adult will re-visit the experience by re-telling and exploring the incident with a changed set of feelings. Use the Reflection Book as a visual prompt to support the child, whilst using the questions below to structure the discussion.

The adult may ask the child questions to explore the incident:

**What happened?** (tell the story)

**What were people thinking and feeling at the time?**

**Who has been affected and how?**

**How can we repair relationships?**

Summarise what we have learnt so we are able to respond differently next time.

Record the outcome of the discussion as an action on **My Concern**.

Children in **Key Stage 2** will complete the **Commitment Slip** as part of the discussion.

### **Physical Intervention Team-Teach**

At Moulton Primary School some members of staff are trained in Team Teach. This is a programme designed to help staff to calm children and de-escalate difficult situations. It also trains staff to hold children safely if it becomes necessary. This would only be done for safety reasons and for the shortest time possible. Should this occasion arise children and staff will be given time to reflect and find a different way with difficult situations in the future. Records are kept and parents or carers are informed.

In cases where it becomes necessary to restrain a child on more than one occasion a Positive Handling Plan will be put in place by SLT, parental support will be requested - see Appendix D.

## **Recording**

Each teacher/member of staff will record behaviour incidents on MyConcern.

Any meeting, formal or informal, must be recorded on MyConcern.

Analysis of behaviour across the school will be carried out by SLT and shared with governors in order to identify and support children and staff.

## **Legal framework**

This policy has been written in line with the relevant legislation and statutory guidance including, but not limited to, the following:

- Education Act 1996
- Education Act 2002
- Equality Act 2010
- Education and Inspections Act 2006
- Health Act 2006
- Voyeurism (Offences) Act 2019
- The School Information (England) Regulations 2008
- DfE (2016) 'Behaviour and discipline in schools'
- DfE (2021) 'Keeping children safe in education 2021'
- DfE (2021) 'Sexual violence and sexual harassment between children in schools and colleges'
- DfE (2018) 'Mental health and behaviour in schools'
- DfE (2015) 'Special educational needs and disability code of practice: 0 to 25 years'
- DfE (2013) 'Use of reasonable force'

### **This policy operates in conjunction with the following school policies:**

- Complaints Procedures Policy
- Special Educational Needs and Disabilities (SEND) Policy
- Exclusion Policy
- Positive Handling Policy
- Child Protection and Safeguarding Policy
- Anti-Bullying Policy

### Behaviour Policy Quick Reminders

#### Gaining Children's Attention

- We are a no shouting school
- 3 2 1 Stop is used to gain children's attention
- The expectation is always that ALL children will stop and listen

#### Engaging Children in Learning

- We are a no hands up school
- A range of strategies are used to engage children in the lesson during discussion and questioning
- Lessons are well planned and provision for those children with SEND and our higher achievers is well considered
- Resources are selected that enable children to fully engage and work as independently as possible
